BlazeClan achieves Amazon Web Services Next-Generation MSP Partner Status

BlazeClan's Cloud Managed Services improves overall performance of organizations by allowing them to focus on critical business services to increase productivity.

BlazeClan maintains AWS APN Premier and Managed Services partner status and has amassed a collection of AWS awards, including Customer Obsession 2014 and 2015, Partner of the Year 2015 – ASEAN and Consulting Partner of the Year - India 2017.

MUMBAI/PUNE/NEW DELHI, India – December 08, 2017

BlazeClan Technologies, the leading cloud consulting company, is proud to be a part of Amazon Web Services (AWS) Managed Service Provider (MSP) Partner Program for the third year in a row. AWS Managed Services Partner status is well-earned through a stringent, rigorous, third-party audit and fulfillment of all the stipulated criteria which covers how partners should plan, build, integrate, operate, optimize, and provide security on AWS.

BlazeClan, one of the early AWS Premier consulting partners in India, helps clients in deploying and managing AWS Cloud services effectively. BlazeClan's MSP services status is not only for its innovative offering across the AWS platform, but also making organizations believe that agility, automation and cloud - all three, go hand-in-hand. BlazeClan has served more than 75+ clients and benefited them in the cloud paradigm.

Expressing contentment, Varoon Rajani, CEO at BlazeClan Technologies said, "We are delighted to be recognized for our impressive track record in bringing value to customers in a cloud environment. This status is a reflection of BlazeClan's commitment towards understanding the cloud challenges and helping their customers overcomes confidently."

Attaining AWS MSP status is the acknowledgment of BlazeClan's knowledge and skills, business practices, and comprehensive management life cycle capabilities that align with AWS standards. Besides, the program also highlights and validates partners' excellence in delivering cloud-based solutions through a managed service model on the AWS platform. With the use of BlazeClan's Cloud Management Platform (CMP), the team ensures 24*7 monitoring of the AWS infrastructure, monitoring of applications, support for AWS services, security review and setup and database administration tasks. Our expert staff makes the automated on boarding process hassle-free and smooth, ensuring active monitoring of the application along with custom reports providing actionable

insights. This unique approach brings a low-stress and fully managed stratagem that's resonated with customers in the market," Varoon added further.

Apart from CMP, BlazeClan also has built in-house big data platform - Cloudlytics, a SaaS based AWS Specific platform used for collection of logs from multiple sources along with quick and easy generation of dynamic statistics. Built from scratch, Cloudlytics has been already integrated with AWS Cloud Trail, AWS VPC Flow Logs, OS System Logs, Trend Micro Deep Security Logs and many more. BlazeClan's highly qualified team of SysOps & DevOps engineers and best practices takes care of high availability, capability and security of infrastructure and applications. BlazeClan also offers SLA, customer support and helps throughout the cloud journey— end to end.

BlazeClan has a comprehensive customer portfolio from various verticals like media and entertainment, banking, financial services and insurance industries, etc. Some of its top customers include Domino's, Viacom 18, Astro International and the Bombay Stock Exchange.

About AWS MSP Program
The AWS Managed Service Program is designed for qualified APN Consulting Partners who demonstrate AWS customer success as well as a continuous commitment to customer obsession. In conjunction with IT Service Management capabilities, APN Partners must also possess proficiency and establish policies around providing services that assist in securing, monitoring, automation and management of their customers' infrastructure, associated databases and applications deployed on AWS.

About BlazeClan Technologies
BlazeClan is a Premier AWS Cloud Consulting company, providing cloud consulting and managed services. An organization that is born in the cloud, it has an international presence with offices across the ASEAN region (Malaysia and Singapore), Europe (Belgium), U.S.A. and Canada, along with a strong sales presence and primary delivery centre in India.
