

BlazeClan Technologies Named Top 100 Public Cloud MSP for 2018

ChannelE2E List and Research Honors Leading MSPs Supporting Amazon Web Services (AWS), Microsoft Azure and Google Cloud Platform (GCP) Customers.

30 Oct 2018, PUNE, INDIA

ChannelE2E, published by After Nines Inc., has named [BlazeClan Technologies](https://www.channele2e.com/top100) to the Top 100 Public Cloud MSP list for 2018 (<https://www.channele2e.com/top100>).

The list and research identify and honor the top 100 managed services providers (MSPs) that support Amazon Web Services, Microsoft Azure and/or Google Cloud Platform (GCP) customers, according to ChannelE2E's findings.

"The wave of digital transformation means customers demand agility and automation from their partners. With cloud being a key part of this transformation, customers are looking at partners who can help them adopt cloud in the right way and manage multi-cloud deployments seamlessly. We are proud to be listed in the Channel E2E's list of top Public Cloud MSPs and happy to have our customer success stories being recognized at a global level. Our aim is to be a trusted advisor to our customers and play a strategic role in their success, because that is how we will succeed," said Varoon Rajani, CEO & Co-founder Blazeclan Technologies. Further, BlazeClan has invested significantly in bringing the next generation Cloud Managed Services capabilities to help their customers become successful in their Digital transformation process.

Top 100 Public Cloud MSPs 2018: ChannelE2E Research Findings

The Top 100 Public Cloud MSP rankings are based on ChannelE2E's 2018 readership survey combined with aggregated third-party research. MSPs featured throughout the list and research provide consulting, migration, optimization, monitoring and/or cost management services for public clouds.

The overall global managed services market now spans more than 80,000 MSPs. However, fewer than 500 of those MSPs are extensively certified to support AWS, Azure and/or GCP workloads, ChannelE2E's research concluded.

The Top 100 Public Cloud MSPs 2018 list and research is a global report. The honorees include MSPs from 22 countries. The lineup includes:

- 68 MSPs focused on AWS
- 43 MSPs focused on Azure
- 30 MSPs focused on Google Cloud Platform
- Dozens of the MSPs focus on both AWS and Azure, but only six MSPs were honored across all three platforms

Demand for public cloud MSPs continues to escalate as customers attempt to move, activate, manage and optimize workloads across AWS, Azure, GCP and other public clouds. The global cloud managed services market was \$23.19 billion in 2016, and is forecast to generate a 15.4 percent compound annual growth rate (CAGR) through 2025, according to Grand View Research.

“After Nines Inc. and ChannelE2E congratulate BlazeClan Technologies on this year’s honor,” said Amy Katz, CEO of After Nines Inc. “As customers seek out qualified public cloud partners, BlazeClan has emerged as a leader in this market.”

[BlazeClan Technologies](#), the leading cloud consulting company, is a proud partner of Amazon Web Services (AWS) Managed Service Provider (MSP) Partner Program. BlazeClan, is one of the early AWS Premier consulting partners in India, and helps clients in deploying and managing AWS Cloud services effectively. BlazeClan’s MSP services status is not only for its innovative offering across the AWS platform but also making organizations believe that agility, automation and cloud – all three, go hand-in-hand.

BlazeClan at rank 21 puts it ahead of global giants and strengthens it as a niche cloud service provider. The high ranking is a validator of their vision to own 20% market share of all cloud computing requirements globally.
