

# BlazeClan achieves AWS Financial Services Competency Status

**Pune, India – March 25, 2018**

[BlazeClan Technologies](#) announced today that it has achieved [Amazon Web Services \(AWS\) Financial Services Competency](#) status. This designation recognizes BlazeClan for delivering robust solutions on AWS that help organizations in the financial services domain manage critical industry challenges, such as risk management, core systems implementations, data management, navigating compliance requirements, and establishing governance models.

"BlazeClan is proud to be one of the first APN partners in India to achieve AWS Financial Services Competency status," said **Varoon Rajani, CEO at BlazeClan Technologies**. "Our team is dedicated to helping customers in the financial services industry achieve their business goals by leveraging the agility of AWS. By supporting our clients in AWS Cloud, they are able to innovate faster, simplify infrastructure needs, and scale quickly. "

Achieving the AWS Financial Services Competency differentiates BlazeClan as an AWS Partner Network (APN) member that has demonstrated relevant technical proficiency and proven customer success, delivering solutions seamlessly in AWS Cloud. To receive the designation, APN Partners must possess deep AWS expertise and undergo an assessment of the security, performance, and reliability of their solutions.

"We believe in the potential of technology to build a large scale, sustainable business. BlazeClan's expertise in managing cloud security through their Cloud Management Platform along with their adherence to financial services security compliances ensures round-the-clock monitoring and management of our AWS infrastructure and provides us with the capability of pushing digital services closer to our customers. I'm happy that BlazeClan has joined an elite group of AWS Financial Services Competency partners," says **Rakesh Bhatt, COO at Bajaj Finance Ltd.**

BlazeClan has also hit another milestone in 2018 by achieving 100 AWS Certifications. The achievement is a result of BlazeClan's continuous dedication in ensuring operational efficiencies and improving customer experience, as well as consistent business growth.

**Deepak Kagliwal, Director and Head of Sales and Marketing at BlazeClan** says, "Our pursuit in working with new technology has enabled us to achieve the distinction of 100 AWS Certifications. We've learnt that our customers prefer to engage with companies with multiple AWS Certifications. Our certified and capable workforce provides in-depth expertise in assisting customers to migrate and optimize their cloud infrastructure workloads on AWS."

"This is a commendable achievement by BlazeClan and exemplifies their customer obsession and desire to dive deeper into engagements with their customers. As more core workloads move to the cloud, and regulations and compliance norms become stringent, the expertise and management capability to ensure a seamless migration to the cloud becomes paramount. The investment that BlazeClan has made in strengthening its expertise in AWS services and programs will give their

customers assurance and confidence to further optimize their use of AWS Cloud,” said **Amitabh Jacob, Head of Channels and Alliances, Amazon Internet Services Private Limited.**

AWS is enabling scalable, flexible, and cost-effective cloud solutions from start-ups to global enterprises. To support the seamless integration and deployment of these solutions, AWS established the [AWS Competency Program](#) to help customers identify Consulting and Technology APN Partners with deep industry experience and expertise.

###

### **About BlazeClan Technologies**

BlazeClan is a Premier Amazon Web Services (AWS) Cloud Consulting company, providing cloud consulting and managed services. An organization that is born in the cloud, it has an international presence with offices across Malaysia, Singapore, Belgium, U.S.A., Australia, New Zealand and Canada, along with a strong sales presence and primary delivery center in India.
