

INNOVATION AND EFFICIENCY GRIPS MINDFIELDS AS BLAZECLAN IMPLEMENTS AWS WORKSPACES

Collaboration ensured a comprehensive setup by shifting to Amazon WorkSpaces from existing Desktop Infrastructure.

Sydney, Australia – April 03, 2018

[BlazeClan Technologies](#), a Premier AWS Consulting partner, has successfully transformed Mindfields existing IT infrastructure to AWS WorkSpaces. Founded in 2006, Mindfields is a vendor-agnostic Robotic Process Automation and Artificial Intelligence advisory firm, providing strategy services to CXO level executives across verticals on emerging and disruptive technologies. BlazeClan's recent move to the ANZ region brings in a gamut of opportunities to new and established enterprises regarding offering AWS cloud services.

“We are very impressed with the personal touch and professionalism that the BlazeClan team showed while migrating our team to the Virtual Desktop with AWS. They implemented a fully customized solution based on our unique requirements.” Says Mohit Sharma, Founder and Managing Director, Mindfields.

The shift from a high maintenance IT infrastructure to AWS Workspaces was a huge transformation. BlazeClan ensured to tick all the boxes for Mindfields by providing Desktop as a Service (DaaS) consisting high-end Virtual Desktops (VDI). The solution utilised various AWS services like WorkSpaces, WorkDocs, AWS Active Directory to host existing applications and tools on the secure virtual desktops. The entire workforce of Mindfields will be on AWS WorkSpaces which could have endless access to VDIs from any part of the globe.

“It's a great move for Mindfields to shift to desktop virtualization which is backed by AWS. This shift not only saves IT infrastructure costs but also provides additional benefits of integrated security, flexibility and increased productivity.” Commented Amit Bassi, Managing Partner, BlazeClan Technologies.

“In addition, for Mindfields we are also migrating robotic process automation (RPA) applications on the AWS platform to host Automation as a Service (AaaS).” Amit Bassi further added. With the shift to AWS WorkSpaces, sharing, storing and extracting digital content and documents is no more a daunting task. By collaborating AWS services like – WorkDocs, Microsoft tools like Office 365, Visio, MS Project, other Portals and other applications, Mindfields is in a better position to conduct operational activities on a standardised infrastructure across all devices and locations.

###

About Mindfields

Founded in 2006, Mindfields is a vendor-agnostic Robotic Process Automation and Artificial Intelligence advisory firm, providing strategy services to CXO level executives across verticals on emerging and disruptive technologies.

Our experienced consultants leverage Mindfields IP-based proprietary tools and innovative methodologies to advise clients while working as a part of their team to meet their KPIs. We have the experience of automating more than 450 processes across various verticals.

Gartner and HfS Research has positioned Mindfields as a leading, niche Robotics Process Automation advisory (RPA) firm and we are globally recognized as a thought leader in this space. We have ranked among the top 20 fastest growing Australian firms in the Deloitte Fast 500.
